Cases and solutions

Assessment of the geological and hydrogeological environment at a site of government-level conflict in Incheon, Korea: Lee JE, Lee KK 278
Development and testing of a contamination potential mapping system for a portion of the General Separations Area, Savannah River Site, South Carolina: Rine JM, Berg RC, Shafer JM, Covington ER, Reed JK, Bennett CB, Trudnak JE 263
Environmental impact of uncontrolled waste disposal in mining and industrial areas in Central Germany: Schreck P 66
Liner design for waste disposal sites: Bouazza A, Van Impe WF 41
Report on the geo-environmental inquiry project, central and eastern Europe: Mattig U, de Mulder EFJ 37
Special speleothems in cement-grouting tunnels and their implications of the atmospheric CO_2 sink: Liu Z, He D 258
The search for landfill sites requirements and implementation in Lower Saxony, Germany: Dörhöfer G, Siebert H 55

Introduction

Geoenvironmental aspects of waste disposal: Langer M 1

Editorial

Hydrological triggers of diffused landsliding: Guzzetti F 79
